The Newsletter of the Victorian Mobile Landcare Group Inc.

Newsletter #5 Spring 2020

Hi All,

This is the second newsletter for the 2020 year and will bring everyone up to date with happenings within the group.

Now that we have come out of our second stage lock down in Melbourne/Victoria, it has been great to be able to get out of the house and move around a little further than the 5Kms and the 25Km restrictions, plus the curfew that we were placed under for the last few months.

For those that have been able to partake in our member's conferencing over the past few months, it has been a good and light-hearted way of spending 40mins or so just to see everyone and find out how we have been dealing with the current Covid problem.

Our next face-to-face member's conference is being organised, using [ZOOM Conferencing](#) for ALL members to get together on **Thursday 19th November at 8PM.**

We have a standard time limit of 40 minutes, which can be extended if required. You are able to come and go at any time.

THE BOARD HAS SUSPENDED ALL WORKS ON OUR PROJECTS UNTIL FURTHER NOTICE; WE WILL KEEP YOU ADVISED.

Presidents Report

The board have continued to meet monthly via Zoom Conferencing. We are continuing to chase up some of the long term projects to see where the organisers are at and when we can start back.

Here are a couple of projects that we are currently working on. Timing might be a little tight for some but I will list them here so that you can decide.

Christmas Breakup 13th December 1.30pm BBQ at Karkarook Park Warrigal Rd Heatherton same location that we held the AGM

AGM 31st January combined with a Segway and BBQ to be held in the Geelong Botanical Gardens, details to be advised.

Langfords West Horseyards Rebuild is showing good signs of going ahead late March/April (school holiday time). Parks Victoria has the budget and we have been emailing with the Ramger there, Kevin Cosgriff, re plans and options for the rebuild. Julie Parke has offered to act as camp catering manager and Esther Priestley has offered to act as the

media manager as we want to record this for our own use, as well as publicity for Parks and the horse camp operators who are licensed to use the yards.

Water Tanks Weekend This could also occur in April depending on the fire season. The board are considering doing a check on the tanks that we installed a few years ago on the Australian Alps Walking Track. We have been made aware of one tank that needs attention and we would check on the others to see their current condition.

Doug has been doing a lot of work on the web site over the last few months; he is going to put a number of links on the site for members to be able to use the web site in a more friendly way. This will allow you to visit the site, see a project then click the link and be registered on that project. By doing this, it will allow organisers of projects to see who is coming and give us a record of who attended each project should something come up at a later date. Stay tuned for further announcements

Cheers for now!
